

THREE-DAY TECHNICAL TRAINING

GOVERNMENT
& PUBLIC SERVICE
INSTITUTIONS

NCTAN-PH

CERTIFIES THAT

EMMANUEL H. OTACAN, MIT

has successfully completed the Public Sector Cybersecurity Certification, a three-day technical training program designed to strengthen digital defense capabilities in government and public service institutions. The program equips participants with practical skills and foundational knowledge to address emerging cyber threats in the public sector and to apply the Cybersecurity Maturity Framework in assessing and advancing institutional cyber resilience.
